

INTERNAL MEMORANDUM

TO: All Employees

FROM: Amanda Foster, HR Manager

DATE: October 24, 2024

RE: Employee Wellness Program Expansion Announcement

Enhanced Wellness Program Announcement: Building a Healthier Robotix Team

Program Overview

As we continue to grow and innovate in the robotics manufacturing space, investing in our team's wellbeing remains a top priority. Based on employee feedback and industry best practices, we're expanding our wellness program to better support our 290-person workforce across both office and manufacturing operations.

New Initiatives for 2024

Physical Wellness Enhancements

- Fitness reimbursement increased to \$75/month (up from \$50)
- On-site fitness classes 3x/week in the manufacturing facility break room
- Ergonomic assessments expanded to all workstations, including assembly lines and testing areas
- Standing desk options now available for all office-based employees
- Annual biometric screenings with Quest Diagnostics (free for employees)

Mental Health Support

- Expanded EAP coverage: 12 free counseling sessions annually (up from 6)
- New partnership with Headspace for meditation and stress management
- Quarterly mental health workshops focused on manufacturing industry challenges
- 24/7 crisis support hotline
- Stress management training for team leads and supervisors

Manufacturing-Specific Wellness

- Enhanced safety equipment fitting assessments

- Monthly ergonomics workshops for assembly line workers
- Specialized stretching programs for repetitive motion tasks
- Back care education and support resources
- Anti-fatigue mat program expansion

Wellness Challenges & Incentives

Q1 2024 Launch Programs

- "Step Up Challenge": Department competition with smart device integration
- Ergonomics Champion certification program
