Last updated: 2026-06-01

Escalation Matrix & On-Call Rotation

Purpose

This document defines the escalation path for all Robotix IT incident and request categories. It is the first reference for Service Desk staff when a ticket needs to move beyond L1. All escalations must be documented in the RobotixDesk ticket before transferring.

How to Escalate

1. Document first: Add a ticket comment explaining what you tried, what you found, and why you are escalating.
2. Transfer the ticket in RobotixDesk to the appropriate team queue (queue names listed below).
3. Notify the receiving team via the contact method in the matrix (do not just queue-transfer without a heads-up for P1/P2 incidents).

4. Update the priority if the situation has changed since the ticket was opened.

Escalation Matrix

Issue Category

L1 Handles

L2 Escalation (Team & Queue)

L3 Escalation (Team & Queue)

Vendor Escalation

Password / Account Unlock

Standard users via Okta

MFA / Okta Verify issues

Factor re-enrollment for standard users

Privileged/admin accounts -> Identity & Access (queue: I2-identity)

YubiKey issues; Okta policy errors -> Identity & Access (queue: I2-identity)

N/A

N/A

Okta platform errors; SAML federation -> Infrastructure (queue: I3-infra)

Okta Support

New User Provisioning

Create ticket; initiate Okta & M365 steps

Offboarding / Deprovisioning

Standard deprovisioning per RUN-003

Email / Microsoft 365

Password reset, basic mailbox how-to, Outlook profile repair

Teams / SharePoint / OneDrive

Basic how-to; sync errors

VPN / GlobalProtect

Account provisioning (Okta group add); basic connectivity troubleshooting

Complex role access; group policy questions -> Identity & Access (queue: I2-identity)

AD/Entra sync issues -> Infrastructure (queue: I3-infra)

Microsoft Support

Involuntary/immediate terminations; Exchange errors -> Identity & Access (queue: I2-identity)

Federated identity issues -> Infrastructure (queue: I3-infra)

N/A

Shared mailbox creation; calendar delegation; license issues -> M365 Team (queue: I2-m365)

Team/channel provisioning; permission issues -> M365 Team (queue: I2-m365)

Profile/gateway issues; vendor group provisioning -> Networking (queue: I2-networking)

Exchange transport rules; hybrid config; tenant-level issues -> Infrastructure (queue: I3-infra)

Governance; compliance holds; tenant policy -> Infrastructure (queue: I3-infra)

Gateway config changes; route table updates -> Networking/Infra (queue: I3-networking)

Microsoft Support

Microsoft Support

Palo Alto Support

Endpoint - Windows

Basic OS how-to; printer, Outlook profile; restart escalation

Endpoint - Mac

Basic macOS how-to; Self Service how-to

CrowdStrike / Security

Network / Wi-Fi

Report phishing; lockout from Falcon quarantine

Restart device, forget & reconnect to Robotix-Corp

Printing / PaperCut

Install printer; how-to; restart print spooler

Imaging/reimage; app deployment; Intune issues -> Desktop Engineering (queue: I2-desktop)

Imaging; Jamf policy issues; hardware -> Desktop Engineering (queue: I2-desktop)

Intune tenant issues; Autopilot errors -> Infrastructure (queue: I3-infra)

Jamf server; ABM issues -> Infrastructure (queue: I3-infra)

Microsoft / Dell Support

Jamf / Apple Support

N/A - route directly to SOC

SOC handles L3 for all security

CrowdStrike Support

DHCP/DNS; 802.1X auth failures; switch port issues -> Networking (queue: I2-networking)

PaperCut account errors; MFP configuration -> Desktop Engineering (queue: I2-desktop)

Core routing; firewall; ISP circuit -> Networking/Infra (queue: I3-networking)

ISP / Palo Alto Support

PaperCut server; infrastructure-level -> Infrastructure (queue: I3-infra)

HP / Xerox Support

Software Requests

Standard approved software via Company Portal / Self Service

Hardware / RMA

Basic peripheral swap from IT spares; log request

Non-standard software (requires security review); packaging -> Desktop Engineering (queue: I2-desktop)

Laptop hardware fault diagnosis; warranty/RMA coordination -> Desktop Engineering (queue: I2-desktop)

N/A

Vendor

N/A

Dell / Apple

P1 - Major Incident

Security Incident / Breach

Detect, log, and immediately page L2/L3

IC role; coordinate response

Technical ownership; resolution authority

As needed per incident

Log ticket; immediately notify SOC; do not investigate independently

N/A

SOC/L3 owns all security incidents

CrowdStrike; Microsoft; as needed

Priority Quick Reference

Priority

Response SLA

Who Handles First

After-Hours?

P1 - Critical

15 minutes

P2 - High

1 hour

L1 detects; immediately escalates to L2/L3 on-call

Yes - 24/7 on-call paged

L1 triage; L2 if not resolved at first contact

Yes - on-call notified for business-critical users

P3 - Medium

4 hours

L1 resolves or escalates during business hours

No - queued for next business day

P4 - Low

1 business day

L1 or queue to appropriate L2 team

No

On-Call Rotation

On-Call Overview

Coverage Level

Hours

Pager Number

Activation

L1 After-Hours (P1 only)

M-F 7 PM - 7 AM ET; all day Sat-Sun

+1 (800) 555-7866 x2

Auto-routed from main line after hours

L2 On-Call Engineer

24/7

+1 (800) 555-7866 x2

L3 On-Call Engineer

24/7

+1 (800) 555-7866 x2

Page via PagerDuty or Slack @l2-oncall

Page via PagerDuty or Slack @l3-oncall

SOC On-Call Analyst

24/7

soc@robotix.com / +1 (800) 555-7866 x3

Direct page; no escalation needed

IT Management On-Call

24/7 (P1 only)

+1 (720) 555-0192 (IT Director)

IC escalates if P1 unresolved >2 hrs

PagerDuty Schedules

All on-call rotations are managed in PagerDuty at <https://robotix.pagerduty.com>.

Schedule Name

Rotation Cadence

Current On-Call (Example)

L2 General On-Call

L2 Identity On-Call

Weekly - rotates every Monday 9 AM ET

Priya Nair (week of 2026-06-22)

Weekly - rotates every Monday 9 AM ET

Devon Marsh (week of 2026-06-22)

L3 Infrastructure On-Call

Weekly - rotates every Monday 9 AM ET

Kenji Watanabe (week of 2026-06-22)

SOC On-Call

12-hour shifts (7 AM / 7 PM ET)

See PagerDuty for current analyst

Always check PagerDuty for the live on-call schedule. The names above are examples only.

Escalation Order for After-Hours P1

If the first contact does not respond within 15 minutes:

1. Page L2 On-Call (PagerDuty auto-escalates after 15 min if no ack)

2. Page L3 On-Call

3. Call IT Director (direct): +1 (720) 555-0192

4. Call CTO (P1 affecting entire company or security breach): +1 (720) 555-0188

Escalation Notes for Specific Scenarios

Involuntary Termination (Immediate Access Revocation)

Submit ticket Priority P2.

(cid:127)

Immediately page L2 Identity On-Call regardless of time.

If SOC involvement needed (suspected malicious activity): simultaneously page SOC.

Target: Okta account suspended within 1 hour of notification.

Security Incident (Active Breach / Ransomware)

Immediately declare P1.

Page SOC on-call directly: +1 (800) 555-7866 x3.

Do not attempt remediation without SOC direction.

Notify IT Director within 30 minutes.

VPN Gateway Outage (All Users)

Immediately declare P1.

Page L3 Networking On-Call.

(cid:127) Open Palo Alto support case (Severity 1) simultaneously - see vendor-support-contacts.md.

Microsoft 365 Tenant-Wide Outage

Check <https://status.office365.com> first.

If Microsoft-side: log the Microsoft incident number in the ticket; communicate to users via Slack #announcements.

If internal (Entra ID sync, conditional access policy): page L3 Infrastructure On-Call.
