

ID: ESC-002 Category: Escalation Audience: IT Staff

Last updated: 2026-06-01

Vendor Support Contacts

Purpose

Reference for Robotix IT staff when escalating issues to third-party vendors. Includes support phone numbers, portal URLs, Robotix IT account/contract IDs, and severity definitions for each vendor. All information is synthetic.

Before calling vendor support, always open a ticket in RobotixDesk to log the vendor case and track it to resolution. Record the vendor case number in the RobotixDesk ticket.

Significant functionality impaired

ProSupport Plus - Standard

Minor issue; guidance needed

Next business day on-site dispatch (some regions: 4-hour response add-on)

Next business day

Next business day (phone/remote)

Warranty / RMA Process

1. Go to <https://www.dell.com/support> and enter the device Service Tag (7-character code on the bottom sticker, also in CMDB).

2. Confirm warranty status and contract coverage.

3.

If hardware repair or replacement is needed: - Click Contact Support > Technical Support. - Reference contract DELL-PS-0038821. - Dell will dispatch a technician (next business day) or ship a replacement part.

4. Log the Dell case number in RobotixDesk and in the CMDB asset record.

Notes

Always retrieve the Dell Service Tag before calling - it is the 7-character alphanumeric code on the bottom of the device.

For pre-order or bulk hardware inquiries, contact the account rep Amber Johansson directly.

2 business days

Incident Response (Falcon OverWatch / IR)

If CrowdStrike detects a threat requiring active incident response: - CrowdStrike OverWatch (24/7 managed threat hunting) will contact the SOC email (soc@robotix.com) directly. - SOC should call +1

(877) 934-5227 and identify as an active breach for immediate P1 IR engagement. - The Customer CID is required for all IR calls.

Notes

Robotix IT's Falcon console is hosted at <https://falcon.crowdstrike.com> (US-1 region).

Sensor downloads and the CID for manual installations are available in the console under Sensor Downloads.

For Falcon sensor deployment issues via Intune/Jamf, reference the CrowdStrike Intune/Jamf deployment guide pinned in Slack #I2-desktop.

Jamf

Products Supported

Jamf Pro (MDM for Mac), Apple Business Manager integration, Jamf Connect (future roadmap).

Next business day

The Jamf Pro instance URL (robotix.jamfcloud.com) and Contract ID JAMF-2025-10029 are required when opening a support case.

For Apple Business Manager integration issues, Jamf Support coordinates with Apple - have the ABM Apple Customer Number (APL-CX-002847) ready.

Jamf Nation (community forums) is an excellent resource for scripting and policy questions before opening a formal case.

Quick Reference: Open a Vendor Case

Step

Action

1

2

3

4

5

6

7

Open a RobotixDesk INC ticket for the vendor issue (if not already open)

Gather: account/contract ID, product version, error messages, impact scope

Log into the vendor support portal (links above) and open a case at the appropriate severity

For P1/Critical: call the support phone - do not rely on portal alone

Record the vendor case number in the RobotixDesk ticket: "Vendor case [CASE-ID] opened [date/time]"

Update the RobotixDesk ticket at each vendor update

On resolution, close the RobotixDesk ticket and note the vendor case resolution
