

Contractor and Temp Access Setup

This guide covers the process for provisioning IT access for contractors, consultants, and temporary workers (collectively "contingent workers") who need access to Robotix IT systems to perform their work. Contingent worker access is scoped more narrowly than full-time employee access and is always time-limited.

For questions, contact the Robotix Service Desk at <https://help.robotix.com> or +1 (800) 555-7866.

Access Tiers for Contingent Workers

Robotix IT provides three access tiers for contingent workers. Select the appropriate tier based on the worker's role and data access requirements.

Tier

Description

Includes

Requires

Tier 1 - Internet & Collaboration Only

Tier 2 - Limited Internal Access

Tier 3 - Extended Access (Managed Device Required)

External visitors or short-term consultants who need internet access and collaboration tools only

Contractors who need access to specific internal systems (e.g., a vendor integrating with an internal API)

Long-term contractors embedded in teams who require broad access similar to an FTE

Guest Wi-Fi (Robotix-Guest), email alias (optional), Zoom meeting link

Manager request via SVC-09

Scoped Okta account, access to 1-3 named applications, no VPN, no email

Manager + IT Security approval

Full Okta account, email, Teams, Slack, VPN, Robotix IT-managed laptop or verified BYOD

Manager + IT Security + CISO approval for sensitive systems

Important: Contingent workers may not use personal, unmanaged devices to access Tier 3 systems. A Robotix IT-managed laptop must be issued or a BYOD enrollment (SVC-06) must be completed and approved by IT Security.

Requesting Access for a Contingent Worker

Step 1 - Confirm the Access Tier Needed

Work with the contingent worker's staffing agency or your HR Business Partner to determine the appropriate tier. When in doubt, start with a lower tier and escalate via SVC-03 if more access is needed.

Step 2 - Submit the Request

1. Go to <https://help.robotix.com> -> Request a Service -> HR & Onboarding -> Contractor / Temp

Access.

2. Provide the following information:

Field

Notes

Contingent worker's full legal name

As it appears in the staffing agency contract

Personal email address

Company / agency name

Used for account provisioning and communication

E.g., "Accenture Federal Services," "Kelly Services"

Contract start date

Access is not active before this date

Contract end date

Access auto-expires on this date; extension requires a new request

Access tier requested

Tier 1, 2, or 3

Specific applications required

List by name and access level for Tier 2 and 3

Manager / sponsor

The Robotix IT employee responsible for this worker

On-site or remote

Required for device and network planning

Data classification

Will the worker access Confidential or Restricted data? (See REF-0001)

3. Submit. Tier 2 requests require IT Security approval. Tier 3 requests require IT Security and CISO

sign-off and may take up to 5 business days.

Account Characteristics for Contingent Workers

Feature

Tier 1

Tier 2

Tier 3

Okta account

No

Yes (scoped)

Yes (full)

Email address

No

Optional alias only

Yes (cw.firstname.lastname@robotix.com)

Microsoft 365 (Teams, OneDrive)

Slack

VPN access

Robotix IT-managed device

No

No

No

No

MFA (Okta Verify)

No

1Password

No

No

No

No

No

Yes

No

Limited (no M365 license by default; Teams guest access only)

Yes (guest account, restricted to specific channels)

Yes (contractor profile, scoped resources only)

Required for Confidential/Restricted data access

Yes

Yes (shared team vault, no personal vault)

Username format for Tier 2/3: cw.firstname.lastname@robotix.com (the cw. prefix distinguishes contingent workers in directory listings and audit logs).

Access Expiration and Renewal

Contingent worker access automatically expires on the contract end date entered in the request. No manual action is required.

At 30 days before expiry, the sponsoring manager receives an email notification

At 7 days before expiry, a second reminder is sent

(cid:127) On the expiry date, the Okta account is suspended and all access is revoked

If the contract is extended, the manager must submit a Contractor Access Extension request at <https://help.robotix.com> before the expiry date - extensions are not automatic

Maximum single contract access window: 12 months. Access beyond 12 months requires re-approval with a new request and CISO review.

Devices for Contingent Workers

(cid:127) (cid:127) (cid:127)

Scenario

Device Policy

On-site Tier 1/2 contractor

Use personal device + Guest Wi-Fi; no company device issued

Remote Tier 2 contractor

Access via browser only; no company device

Tier 3 contractor (standard)

Robotix IT-managed loaner laptop issued; enrolled in Intune/Jamf

Tier 3 contractor (BYOD approved)

Personal device enrolled in Intune via Company Portal; Tier 3 managed app policy applied

Loaner laptops for contractors are charged to the sponsoring department at \$75/month. Contractors are responsible for physical care of the device; damage charges apply per the Equipment Return Guide.

Offboarding Contingent Workers

When a contractor's engagement ends (either at contract end or early termination):

1. Access auto-expires at contract end date - no action needed for planned contract completions
2. For early termination, submit an early offboarding request at <https://help.robotix.com> -> Request a Service -> HR & Onboarding -> Employee Offboarding, and select Contractor - Early Termination
3. For immediate termination, call the Service Desk at +1 (800) 555-7866 and request Priority

Contractor Offboarding

4. Equipment (if issued) must be returned within 3 business days of contract end - see Equipment Return

Guide

Fulfillment SLA

Request Type

Target Fulfillment

Notes

Tier 1 - Guest Wi-Fi pre-registration

1 business hour

P4 SLA

Tier 2 - Limited access setup

3 business days

P4 SLA; IT Security approval required

Tier 3 - Extended access setup

5 business days

P3 SLA; IT Security + CISO approval

Contractor access extension

2 business days

P4 SLA; must be submitted before expiry

Contractor emergency offboarding

1 business hour

P2 SLA; phone required

SVC-03 - Application / Data Access Request

SVC-07 - VPN / Remote Access Request

SVC-09 - Guest Wi-Fi & Visitor Access
