New Hire IT Onboarding Checklist

Complete this checklist during your first week at Robotix Technologies. Items marked Day 1 should be completed on your first day with the help of your manager or IT onboarding guide. Items marked Week 1 should be completed by end of your first week.

If you get stuck on any item, open a ticket at <https://help.robotix.com> or ask in Slack #it-help.

Accounts & Identity

- ☐ Day 1 - Receive your temporary Okta password from your manager (delivered to manager before your start date)
- ☐ Day 1 - Log in to Okta at <https://robotix.okta.com> using your email `firstname.lastname@robotix.com` and temporary password
- ☐ Day 1 - Reset your Okta password to a personal passphrase (minimum 14 characters; must not be reused from previous employers)
- ☐ Day 1 - Enroll in Okta Verify MFA: download the Okta Verify app on your phone, scan the QR code, and confirm push notification works
- ☐ Day 1 - Sign in to the RobotixDesk portal at <https://help.robotix.com> to verify access
- ☐ Week 1 - Set up 1Password Business: accept the invite sent to your personal email, install the desktop app and browser extension, and save your Okta password as your first entry

Laptop & Endpoint

- ☐ Day 1 - Power on your Robotix IT-provisioned laptop (Dell Latitude 7440 or MacBook Pro 14")
- ☐ Day 1 - Complete the initial setup wizard (language, region, user profile) - do not skip Intune/Jamf enrollment prompts
- ☐ Day 1 - Confirm CrowdStrike Falcon is running: Windows - check system tray; Mac - check menu bar for the falcon icon
- ☐ Day 1 - Confirm GlobalProtect VPN is installed and connect to the VPN using your Okta credentials
- ☐ Day 1 - Confirm Microsoft Intune Company Portal (Windows) or Jamf Pro Self Service (Mac) is installed and shows your device as enrolled

[] Week 1 - Install any additional approved software via Company Portal (Windows) or Self Service (Mac) that your role requires - see SVC-02 for the catalog

Microsoft 365

[] Day 1 - Open Outlook and send a test email to yourself to confirm your mailbox is active (firstname.lastname@robotix.com)

(cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127)

[] Day 1 - Add your email signature: name, title, phone number, and Robotix Technologies logo (template in the IT-Welcome email in your inbox)

[] Day 1 - Open Microsoft Teams and confirm you can see your department team channel

[] Week 1 - Sign in to OneDrive and confirm your 1 TB personal OneDrive is accessible

[] Week 1 - Access the Robotix IT Intranet on SharePoint: <https://robotix.sharepoint.com/sites/intranet>

[] Week 1 - Accept calendar invites for your team's standing meetings

Slack

[] Day 1 - Open Slack and sign in with your Robotix IT Okta account (use Sign in with Okta option)

[] Day 1 - Confirm you are in these required channels: #general, #it-help, #announcements, and your department channel

[] Week 1 - Add a profile photo and fill in your title and phone number in Slack profile settings

[] Week 1 - Join any additional team channels your manager recommends

VPN & Remote Access

[] Day 1 - Open Palo Alto GlobalProtect and connect using vpn.robotix.com as the gateway (pre-configured on managed laptops)

[] Day 1 - Authenticate with your Okta credentials and approve the Okta Verify push notification

[] Day 1 - Confirm VPN is connected (GlobalProtect icon shows as connected in taskbar/menu bar)

[] Week 1 - Disconnect and reconnect VPN at least once to confirm the flow works independently

Security & Compliance

[] Day 1 - Read the Robotix IT Acceptable Use Policy (link in your IT-Welcome email) and acknowledge

receipt in RobotixDesk

[] Week 1 - Complete the Security Awareness Training module assigned in your Okta dashboard (approximately 45 minutes)

[] Week 1 - Install Okta Verify on a second device (personal phone or tablet) as a backup MFA method - optional but strongly recommended

[] Week 1 - Set up a YubiKey if issued to your role (IT Admin, Finance, Legal, or privileged access roles) - see your IT welcome kit

Additional Setup (Role-Dependent)

[] Week 1 - Accept access to role-specific applications (Salesforce, GitHub, Tableau, Adobe CC, etc.) - invites sent to your Robotix IT email

[] Week 1 - Confirm you can log in to each application via Okta SSO at <https://robotix.okta.com>

[] Week 1 - Contact your manager if any expected application access is missing - submit a ticket via SVC-03

(cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127) (cid:127)

Done? Let IT Know

Once you have completed all applicable items, reply to your IT-Welcome ticket in RobotixDesk to let the Service Desk know your setup is complete. This closes out your onboarding ticket and ensures any outstanding items are followed up.

Questions? Open a ticket at <https://help.robotix.com> or message #it-help in Slack.
