

SVC-09 - Guest Wi-Fi & Visitor Access

Description

Robotix IT provides a secure guest Wi-Fi network (Robotix-Guest) for visitors, clients, and contractors who need temporary internet access but do not have Robotix IT credentials. The guest network is isolated from the corporate network and provides internet-only access.

This service covers:

Visitor Wi-Fi access codes for individual guests or small groups

Pre-registered bulk access for events with many external attendees

Temporary contractor portal accounts for contractors who need limited web-based system access without full Okta provisioning

Who Can Request

Any Robotix IT employee may request guest Wi-Fi access on behalf of a visitor. The requesting employee is responsible for the visitor's use of the guest network during their visit.

What's Included

Guest Wi-Fi (Robotix-Guest)

Parameter

SSID

Authentication

Access type

Bandwidth limit

Session length

Security

Value

Robotix-Guest

Captive portal - daily access code or pre-registered email

Internet only; no access to internal Robotix IT resources

25 Mbps per session

8 hours; renewable at captive portal

Isolated VLAN; no access to Robotix-Corp or internal subnets

Daily access codes are available from the reception desk at each office. Employees hosting visitors may also pre-generate a time-limited code for their guest through RobotixDesk.

(cid:127) (cid:127) (cid:127)

Pre-Registered Guest Access

For visitors who need uninterrupted access across multiple days or for large events:

(cid:127) Guest is registered by the Robotix IT host employee

Visitor receives an email with a personal login link (no daily code needed)

Access window: 1-30 days (configurable)

Automatically expires at end of access window

Visitor Badge IT Integration

IT does not manage physical visitor badges; however, for offices using integrated physical access systems, guest Wi-Fi pre-registration can be linked to the visitor badge system through reception. Contact reception at the relevant office to coordinate.

How to Request

Same-Day / Walk-In Visitor

Visitors may use the daily access code available at the front desk reception at any Robotix IT office. No pre-request required.

Pre-Registered Guest Access

1. Go to <https://help.robotix.com> -> Request a Service -> Network & Access -> Guest Wi-Fi Access.

2. Enter the visitor's full name, company, email address, the date(s) of access, and the office location (or

select Remote / Virtual for virtual event use).

3. Specify the access duration (1-30 days).

4. Submit. The visitor receives an automated email with their personal captive portal credentials within 1 business hour.

Event / Bulk Guest Access (10+ visitors)

1. Submit the same form and select Event / Bulk Access.

2. Upload a CSV file with visitor names and email addresses (template available on the form).

3. Provide the event date range and location.

4. Submit at least 1 business day before the event. IT will provision all accounts and provide a summary code sheet to the event coordinator.

Fulfillment SLA

Request Type

Target Fulfillment

Notes

Daily access code (walk-in)

Immediate

Available at reception; no ticket needed

(cid:127) (cid:127) (cid:127)

Pre-registered single guest

1 business hour

P4 SLA; automated provisioning

Pre-registered bulk / event access

1 business day

P4 SLA; requires 1 BD advance notice

Guest network outage

1 business hour

P3 SLA

Cost / Chargeback

Guest Wi-Fi access is provided at no cost to departments. No chargeback applies.

Acceptable Use

Guest Wi-Fi is subject to Robotix IT's Acceptable Use Policy. The hosting employee agrees that the visitor will:

Use the network for legitimate business or personal internet access only

Not attempt to access internal Robotix IT resources

Not conduct illegal activity, including unauthorized scanning or data interception

Robotix IT reserves the right to terminate guest access at any time for policy violations.
