

NPS Trends Report - Q2 2024

Robotix Customer Satisfaction Analysis

Author: Chris Patel, Marketing Manager

Date: July 5, 2024

Period: Q2 2024 (April 1 - June 30, 2024)

Executive Summary

Our Q2 2024 Net Promoter Score (NPS) reached 48, showing continued positive momentum with a 3-point increase from Q1. Based on 642 customer responses (27% response rate), we maintain a strong position above the industry average of 40. Enterprise segment shows particularly strong growth, while SMB satisfaction requires attention around implementation support.

Key Metrics Overview

Metric	Q2 2024	Q1 2024	Change
Overall NPS	48	45	+3
Response Rate	27%	24%	+3%
Promoters	56%	54%	+2%
Passives	36%	37%	-1%
Detractors	8%	9%	-1%

Detailed Segment Analysis

NPS by Customer Segment

Segment	NPS	Response Count
Enterprise	52	284
Mid-Market	47	198
SMB	41	160

NPS by Product Category

Product Line	NPS	YoY Change
Industrial Robots	51	+4
Collaborative Robots	49	+6
Mobile Robots	45	+2
Software Solutions	43	-1

Key Satisfaction Drivers

Positive Factors

- 1. Product reliability (mentioned by 72% of Promoters)
- 2. Technical support response time (64%)
- 3. Integration flexibility (58%)
- 4. ROI realization (52%)

Areas for Improvement

- 1. Software interface complexity (cited by 68% of Detractors)
- 2. Initial training duration (54%)
- 3. Spare parts availability (42%)
- 4. Documentation clarity (38%)

Customer Verbatim Highlights

"The RX-7000 series has transformed our production efficiency. Support team response is consistently excellent." - Manufacturing Director, Enterprise Customer

"Integration was smoother than expected, but training materials could be more comprehensive." - Operations Manager, Mid-Market

"Price point remains a challenge for smaller operations like ours." - Plant Manager, SMB

Quarterly Trends

Metric	Q2 2024	Q1 2024	Q4 2023	Q3 2023
NPS	48	45	43	41
Response Rate	27%	24%	23%	22%

Metric	Q2 2024	Q1 2024	Q4 2023	Q3 2023
--------	---------	---------	---------	---------

Support Satisfaction 8.4/10 8.2/10 8.1/10 8.0/10

Strategic Recommendations

- 1. **Software Usability Enhancement** - Implement UI simplification project - Launch guided setup wizards - Target completion: Q4 2024
- 2. **Training Program Optimization** - Develop micro-learning modules - Expand virtual training options - Implementation: Q3 2024
- 3. **SMB Support Initiative** - Create dedicated SMB support team - Develop simplified implementation packages - Launch: Q3 2024

Competitive Context

Competitor	Published NPS	Market Position
------------	---------------	-----------------

Robotix	48	Leader
Competitor A	45	Close competitor
Competitor B	39	Following
Industry Average	40	-

Survey Methodology

- Distribution: Multi-channel (email, in-app, post-support)
- Frequency: Quarterly for existing customers
- Sample: Stratified random sampling
- Questions: Standard NPS + 5 custom satisfaction metrics

Action Plan Q3 2024

- 1. **Immediate Actions** - Launch software interface simplification project - Expand training resource library - Implement SMB quick-start program
- 2. **Medium-Term Initiatives** - Develop advanced self-service portal - Enhance integration documentation - Review pricing structure for SMB segment

Appendix: Response Demographics

Region	Response Count	Response Rate
North America	312	29%
Europe	198	26%
Asia Pacific	132	24%

This report represents our continued commitment to customer satisfaction and service excellence. The positive trend in our NPS score reflects successful initiatives while highlighting areas for continued improvement.
