Industry	Lead Volume	MQL Rate	SQL Rate
Manufacturing	412	38%	25%
Automotive	186	32%	21%
Electronics	156	34%	22%
Logistics	98	28%	18%
Other	83	25%	15%

Channel Performance

Referral Source Performance

Source	Leads	MQL %	SQL %	CAC
Partner Network	486	42%	28%	\$380
Customer Referrals	245	38%	24%	\$220
Industry Events	156	32%	20%	\$450
Employee Referrals	48	35%	22%	\$180

Top Performing Campaigns

Campaign	Leads	Conv. Rate	ROI
Partner Certification Program	186	4.2%	315%
Customer Advocacy Program	142	3.8%	280%
Industry Summit Sponsorship	98	3.2%	220%

Key Insights

1. Partner referrals deliver highest quality leads (28% SQL conversion)
2. Manufacturing sector leads show strongest progression through funnel
3. North American market continues to dominate lead volume (52%)
4. Customer referral program shows lowest CAC (\$220)
5. Enterprise leads convert 32% better than SMB segment

Recommendations

1. **Partner Program Enhancement** - Expand partner certification program to EMEA region - Implement tier-based rewards system - Target 30% growth in partner-generated leads
2. **Geographic Expansion** - Increase APAC partner network by 40% - Launch localized referral programs in key European markets - Develop region-specific incentive structures
3. **Industry Focus** - Double down on manufacturing vertical - Develop specialized content for automotive sector - Create industry-specific referral tracks
4. **Program Optimization** - Implement automated lead scoring for referrals - Enhance partner portal functionality - Develop real-time tracking dashboard

Next Steps

1. Launch enhanced partner portal by Q3 2025
2. Implement new lead scoring system
3. Expand APAC partner network
4. Develop industry-specific referral programs

Appendix: Methodology

- Data collected through Salesforce CRM
- Lead scoring based on BANT criteria
- Conversion tracking via HubSpot
- ROI calculated on 12-month customer value
