Key Insights

- 1. Booth demonstrations continue to generate highest quality leads (82 lead score)
- 2. North American market shows strongest conversion rates (4.2%)
- 3. Manufacturing sector leads remain primary vertical (35% of total)
- 4. Technical workshops showing improved ROI vs previous quarter
- 5. European lead volume increased 42% YoY

Recommendations

- 1. **Booth Strategy Enhancement** - Increase demo station capacity by 25% - Implement automated lead scoring system - Deploy additional technical staff during peak hours
- 2. **Content Optimization** - Develop industry-specific content for top 3 verticals - Create multi-language materials for European market - Enhanced technical documentation for SQL stage
- 3. **Follow-up Process** - Implement 24-hour initial response protocol - Develop specialized nurture tracks by industry - Enhanced integration with technical sales team
- 4. **Resource Allocation** - Increase booth staff at IRX 2025 by 30% - Expand technical workshop capacity - Invest in digital lead capture technology

Next Steps

- 1. Implement enhanced lead scoring system by Q2 2025
- 2. Develop vertical-specific follow-up sequences
- 3. Expand European trade show presence
- 4. Optimize booth layout for maximum demo efficiency
