

Lead Tracking Report - Trade Shows

Robotix - September 2025

Executive Summary

Q3 2025 trade show activities generated 487 new leads across 4 major industry events, representing a 23% increase from Q2. Marketing Qualified Lead (MQL) conversion rate improved to 28%, while Sales Qualified Lead (SQL) conversion held steady at 15%. The Automation World Expo delivered the strongest performance, accounting for 42% of total leads.

Lead Volume Analysis

Total Lead Generation by Event

Event Name	Total Leads	MQLs	SQLs
Automation World Expo	204	67	35
RoboTech Summit	143	38	19
Industrial IoT Conference	85	21	11
Manufacturing Tech Show	55	12	8
Total	487	138	73

Geographic Distribution

Region	Lead Count	Percentage
North America	235	48.3%
Europe	127	26.1%
Asia Pacific	89	18.3%
Other	36	7.3%

Conversion Metrics

Funnel Performance

Stage	Count	Conversion Rate
Total Leads	487	-
MQLs	138	28.3%
SQLs	73	15.0%
Opportunities	31	6.4%
Closed Won	12	2.5%

Industry Breakdown

Industry	Lead Count	MQL Rate	SQL Rate
Automotive	156	32.1%	18.6%
Electronics	124	29.8%	16.1%
Aerospace	98	25.5%	13.3%
General Manufacturing	109	24.8%	11.9%

Channel Performance

Lead Quality by Source

Source	Avg. Lead Score	MQL %	SQL %
Booth Demos	82	35.2%	19.8%
Speaking Sessions	78	31.5%	17.3%
Networking Events	65	22.4%	12.1%
Digital Campaigns	58	19.8%	9.6%

Top Performing Product Interest

Product Category	Interest Level	Conversion Rate
Industrial Robots	High	18.5%
Cobots	High	16.2%
Control Systems	Medium	12.8%
Vision Systems	Medium	11.3%

Key Insights

- 1. Booth demonstrations continue to generate highest quality leads (35.2% MQL rate)
- 2. Automotive sector shows strongest conversion rates across all stages
- 3. North American leads convert 22% better than other regions
- 4. Speaking sessions deliver 2.4x better conversion rates than digital campaigns

Recommendations

- 1. **Event Strategy Optimization** - Increase booth demo capacity at Automation World Expo - Secure speaking slots at RoboTech Summit - Reduce investment in digital campaigns during shows
- 2. **Lead Nurturing Improvements** - Implement industry-specific nurture tracks - Develop targeted content for automotive sector - Enhanced follow-up protocol for booth demo leads
- 3. **Resource Allocation** - Increase booth staff by 25% for major shows - Invest in demo equipment for top-performing products - Expand pre-show marketing in North American region
- 4. **Process Enhancements** - Implement real-time lead scoring at events - Enhance CRM integration for faster follow-up - Develop specialized sales enablement for high-converting industries

Next Steps

- 1. Review Q4 event calendar for implementation of recommendations
- 2. Develop enhanced booth demo program
- 3. Update lead scoring model based on current conversion data
- 4. Launch industry-specific nurture campaigns for top sectors
