

INTERNAL MEMORANDUM

TO: All Sales Team Members
FROM: Jessica Martinez, Sales Representative
DATE: January 05, 2024
RE: Q1 2024 Sales Performance Summary

QUARTERLY SALES PERFORMANCE SUMMARY - Q1 2024

Overall Performance Q1 2024 delivered strong results with total revenue of \$12.3M, representing 18% year-over-year growth and achieving 103% of quarterly target. Gross margins remained healthy at 42%, driven by increased software integration revenue and operational efficiencies in our manufacturing processes.

Product Category Performance - Industrial Robots: \$6.8M (+25% YoY) - RX-3000 series led performance with 42 units shipped - Heavy payload (>150kg) segment grew 31% - New vision-guided features driving upgrade cycles

- Collaborative Robots: \$3.2M (+15% YoY)
- CR-15 cobot platform exceeded expectations with 68 units
- SME adoption accelerating in electronics assembly
- New safety certification driving medical/pharma applications
- Software & Services: \$2.3M (+22% YoY)
- RobotixCloud subscriptions up 40% to 850 active users
- Preventive maintenance contracts renewed at 94%
- New simulation package driving pre-sales engagement

Regional Performance - North America: \$5.8M (+22% YoY) - Strong automotive and electronics manufacturing demand - Key wins in medical device assembly

- Europe: \$3.7M (+12% YoY)
- German manufacturing sector leading growth
- Supply chain delays impacting Southern Europe delivery
- Asia-Pacific: \$2.8M (+19% YoY)
- Semiconductor equipment demand driving growth
- New distributor relationships performing well

Major Q1 Wins 1. \$2.1M system integration project with leading automotive supplier - 8 RX-3000 units for

powertrain assembly - Full RobotixCloud implementation

2. Medical device manufacturer standardization agreement - 12 CR-15 cobots for clean room operations - 3-year service contract included
3. Electronics manufacturer expansion - \$875K mixed fleet deployment - Integration with existing MES platform

Operational Highlights - Average deal size increased 15% to \$225K - Sales cycle reduced to 92 days (from 108 in Q4) - Service attachment rate improved to 68% - Quote-to-close ratio at 32%

Q2 2024 Outlook & Targets - Revenue target: \$13.5M (+16% YoY) - Focus areas: * Food & beverage sector expansion * New RX-3500 heavy payload launch * European distribution network optimization

Key Initiatives for Q2 1. Launch RobotixCloud Enterprise tier 2. Expand application engineering team (+4 headcount) 3. Accelerate CR-series certification for pharmaceutical applications 4. Implementation of new configure-price-quote (CPQ) system

Pipeline Health - Current pipeline: \$28.4M - Qualified opportunities: \$15.7M - Late-stage negotiations: \$6.2M

Risk Factors - Continued semiconductor constraints - Extended lead times on precision components - Regional economic uncertainties in Southern Europe

Action Items 1. Regional sales teams to update pipeline validation by April 15 2. Technical pre-sales support requests due for Q2 launch activities 3. Distribution partner training scheduled for May 4. Updated pricing strategy implementation by end of April

Please direct any questions to your regional sales director or schedule time with me directly.
