

Escalation Matrix & On-Call Rotation

Purpose

This document defines the escalation path for all Summit IT incident and request categories. It is the first reference for Service Desk staff when a ticket needs to move beyond L1. All escalations must be documented in the SummitDesk ticket before transferring.

How to Escalate

1. **Document first:** Add a ticket comment explaining what you tried, what you found, and why you are escalating.
2. **Transfer the ticket** in SummitDesk to the appropriate team queue (queue names listed below).
3. **Notify** the receiving team via the contact method in the matrix (do not just queue-transfer without a heads-up for P1/P2 incidents).
4. **Update the priority** if the situation has changed since the ticket was opened.

Escalation Matrix

Issue Category	L1 Handles	L2 Escalation (Team & Queue)	L3 Escalation (Team & Queue)	Vendor Escalation
Password / Account Unlock	Standard users via Okta	Privileged/admin accounts -> Identity & Access (queue: l2-identity)	N/A	N/A
MFA / Okta Verify issues	Factor re-enrollment for standard users	YubiKey issues; Okta policy errors -> Identity & Access (queue: l2-identity)	Okta platform errors; SAML federation -> Infrastructure (queue: l3-infra)	Okta Support

New User Provisioning	Create ticket; initiate Okta & M365 steps	Complex role access; group policy questions -> Identity & Access (queue: l2-identity)	AD/Entra sync issues -> Infrastructure (queue: l3-infra)	Microsoft Support
Offboarding / Deprovisioning	Standard deprovisioning per RUN-003	Involuntary/immediate terminations; Exchange errors -> Identity & Access (queue: l2-identity)	Federated identity issues -> Infrastructure (queue: l3-infra)	N/A
Email / Microsoft 365	Password reset, basic mailbox how-to, Outlook profile repair	Shared mailbox creation; calendar delegation; license issues -> M365 Team (queue: l2-m365)	Exchange transport rules; hybrid config; tenant-level issues -> Infrastructure (queue: l3-infra)	Microsoft Support
Teams / SharePoint / OneDrive	Basic how-to; sync errors	Team/channel provisioning; permission issues -> M365 Team (queue: l2-m365)	Governance; compliance holds; tenant policy -> Infrastructure (queue: l3-infra)	Microsoft Support
VPN / GlobalProtect	Account provisioning (Okta group add); basic connectivity troubleshooting	Profile/gateway issues; vendor group provisioning -> Networking (queue: l2-networking)	Gateway config changes; route table updates -> Networking/Infra (queue: l3-networking)	Palo Alto Support

Endpoint - Windows	Basic OS how-to; printer, Outlook profile; restart escalation	Imaging/reimage; app deployment; Intune issues -> Desktop Engineering (queue: l2-desktop)	Intune tenant issues; Autopilot errors -> Infrastructure (queue: l3-infra)	Microsoft / Dell Support
Endpoint - Mac	Basic macOS how-to; Self Service how-to	Imaging; Jamf policy issues; hardware -> Desktop Engineering (queue: l2-desktop)	Jamf server; ABM issues -> Infrastructure (queue: l3-infra)	Jamf / Apple Support
CrowdStrike / Security	Report phishing; lockout from Falcon quarantine	N/A - route directly to SOC	SOC handles L3 for all security	CrowdStrike Support
Network / Wi-Fi	Restart device, forget & reconnect to Summit-Corp	DHCP/DNS; 802.1X auth failures; switch port issues -> Networking (queue: l2-networking)	Core routing; firewall; ISP circuit -> Networking/Infra (queue: l3-networking)	ISP / Palo Alto Support
Printing / PaperCut	Install printer; how-to; restart print spooler	PaperCut account errors; MFP configuration -> Desktop Engineering (queue: l2-desktop)	PaperCut server; infrastructure-level -> Infrastructure (queue: l3-infra)	HP / Xerox Support

Software Requests	Standard approved software via Company Portal / Self Service	Non-standard software (requires security review); packaging -> Desktop Engineering (queue : l2-desktop)	N/A	Vendor
Hardware / RMA	Basic peripheral swap from IT spares; log request	Laptop hardware fault diagnosis; warranty/RMA coordination -> Desktop Engineering (queue : l2-desktop)	N/A	Dell / Apple
P1 - Major Incident	Detect, log, and immediately page L2/L3	IC role; coordinate response	Technical ownership; resolution authority	As needed per incident
Security Incident / Breach	Log ticket; immediately notify SOC; do not investigate independently	N/A	SOC/L3 owns all security incidents	CrowdStrike; Microsoft; as needed

Priority Quick Reference

Priority	Response SLA	Who Handles First	After-Hours?
P1 - Critical	15 minutes	L1 detects; immediately escalates to L2/L3 on-call	Yes - 24/7 on-call paged
P2 - High	1 hour	L1 triage; L2 if not resolved at first contact	Yes - on-call notified for business-critical users

P3 - Medium	4 hours	L1 resolves or escalates during business hours	No - queued for next business day
P4 - Low	1 business day	L1 or queue to appropriate L2 team	No

Team Contacts

Team	Queue Name	Email	Slack Channel	Hours
L1 - Service Desk	l1-service-desk	servicedesk@summitit.com	#l1-help	M-F 7 AM - 7 PM ET
L2 - Identity & Access	l2-identity	identity@summitit.com	#l2-identity	M-F 8 AM - 6 PM ET
L2 - Microsoft 365	l2-m365	m365@summitit.com	#l2-m365	M-F 8 AM - 6 PM ET
L2 - Desktop Engineering	l2-desktop	desktop@summitit.com	#l2-desktop	M-F 8 AM - 6 PM ET
L2 - Networking	l2-networking	networking@summitit.com	#l2-networking	M-F 8 AM - 6 PM ET
L3 - Infrastructure	l3-infra	infra@summitit.com	#l3-infrastructure	M-F 9 AM - 5 PM ET
L3 - Networking/Infra	l3-networking	networking-l3@summitit.com	#l3-networking	M-F 9 AM - 5 PM ET
SOC	soc	soc@summitit.com	#security	24/7

On-Call Rotation

On-Call Overview

Coverage Level	Hours	Pager Number	Activation
L1 After-Hours (P1 only)	M-F 7 PM - 7 AM ET; all day Sat-Sun	+1 (800) 555-7866 x2	Auto-routed from main line after hours

L2 On-Call Engineer	24/7	+1 (800) 555-7866 x2	Page via PagerDuty or Slack @l2-oncall
L3 On-Call Engineer	24/7	+1 (800) 555-7866 x2	Page via PagerDuty or Slack @l3-oncall
SOC On-Call Analyst	24/7	soc@summitit.com / +1 (800) 555-7866 x3	Direct page; no escalation needed
IT Management On-Call	24/7 (P1 only)	+1 (720) 555-0192 (IT Director)	IC escalates if P1 unresolved >2 hrs

PagerDuty Schedules

All on-call rotations are managed in PagerDuty at <https://summitit.pagerduty.com>.

Schedule Name	Rotation Cadence	Current On-Call (Example)
L2 General On-Call	Weekly - rotates every Monday 9 AM ET	Priya Nair (week of 2026-06-22)
L2 Identity On-Call	Weekly - rotates every Monday 9 AM ET	Devon Marsh (week of 2026-06-22)
L3 Infrastructure On-Call	Weekly - rotates every Monday 9 AM ET	Kenji Watanabe (week of 2026-06-22)
SOC On-Call	12-hour shifts (7 AM / 7 PM ET)	See PagerDuty for current analyst

Always check PagerDuty for the live on-call schedule. The names above are examples only.

Escalation Order for After-Hours P1

If the first contact does not respond within **15 minutes**:

1. Page L2 On-Call (PagerDuty auto-escalates after 15 min if no ack)
2. Page L3 On-Call
3. Call IT Director (direct): +1 (720) 555-0192
4. Call CTO (P1 affecting entire company or security breach): +1 (720) 555-0188

Escalation Notes for Specific Scenarios

Involuntary Termination (Immediate Access Revocation)

- Submit ticket **Priority P2**.

- Immediately page L2 Identity On-Call regardless of time.
- If SOC involvement needed (suspected malicious activity): simultaneously page SOC.
- Target: Okta account suspended within **1 hour** of notification.

Security Incident (Active Breach / Ransomware)

- Immediately declare **P1**.
- Page SOC on-call directly: +1 (800) 555-7866 x3.
- Do not attempt remediation without SOC direction.
- Notify IT Director within 30 minutes.

VPN Gateway Outage (All Users)

- Immediately declare **P1**.
- Page L3 Networking On-Call.
- Open Palo Alto support case (Severity 1) simultaneously - see vendor-support-contacts.md.

Microsoft 365 Tenant-Wide Outage

- Check <https://status.office365.com> first.
- If Microsoft-side: log the Microsoft incident number in the ticket; communicate to users via Slack #announcements.
- If internal (Entra ID sync, conditional access policy): page L3 Infrastructure On-Call.
