

Vendor Support Contacts

Purpose

Reference for Summit IT staff when escalating issues to third-party vendors. Includes support phone numbers, portal URLs, Summit IT account/contract IDs, and severity definitions for each vendor. All information is synthetic.

Before calling vendor support, always open a ticket in SummitDesk to log the vendor case and track it to resolution. Record the vendor case number in the SummitDesk ticket.

Vendor Summary Table

Vendor	Product(s)	Account/Contract ID	Primary Support Portal	Support Phone	Summit IT TAM / Account Rep
Microsoft	Microsoft 365, Intune, Entra ID, Azure, Defender	Account: SMT-MS-447291 / Tenant ID: a7f3d01c-88b2-4e99-bc12-7734edd09a21	Support">https://admin.microsoft.com/>Support	+1 (800) 642-7676	Rachel Kim - rkim@microsoft.com
Okta	Identity / SSO / MFA	Contract: OKT-2024-88341 / Org: summitit.okta.com	https://support.okta.com	+1 (800) 219-0964	Tom Vasquez - tvasquez@okta.com
Palo Alto Networks	GlobalProtect VPN, Panorama	Support Account: PA-CX-99201 / CSP: summitit-pa	https://support.paloaltonetworks.com	+1 (866) 898-9087	Diego Reyes - dreyes@paloaltonetworks.com
Dell Technologies	Latitude 7440, Monitors, WD19 Docks	ProSupport Contract: DELL-PS-0038821	https://www.dell.com/support	+1 (800) 624-9897	Amber Johansson - amberj@dell.com

CrowdStrike	Falcon endpoint security	Account: CS-ENT-77412 / CID: b2c9e7f14a3d...	https://supportportal.crowdstrike.com	+1 (877) 934-5227	Marcus Bell mbell@crowdstrike.com
Jamf	Jamf Pro (MDM for Mac)	Contract: JAMF-2025-10029 / Instance: summit.jamfcloud.com	https://www.jamf.com/support/	+1 (612) 605-6625	Sandra Ito - sito@jamf.com

Microsoft

Products Supported

Microsoft 365 (Exchange Online, Teams, SharePoint, OneDrive, Office), Microsoft Intune, Microsoft Entra ID (Azure AD), Azure cloud services, Microsoft Defender for Office 365, Azure Monitor.

Support Details

Field	Value
Support portal	https://admin.microsoft.com > ? (Help) > Contact support
Admin phone	+1 (800) 642-7676
Premier / Unified Support portal	https://aka.ms/unifiedsupport
Summit IT Account ID	SMT-MS-447291
Entra Tenant ID	a7f3d01c-88b2-4e99-bc12-7734edd09a21
Support contract	Microsoft Unified Support - Enterprise
Contract renewal date	2027-03-31
TAM	Rachel Kim - rkim@microsoft.com - +1 (425) 555-0147
Service health status	https://status.office365.com
Azure status	https://status.azure.com

Severity Definitions (Microsoft)

Severity	Definition	Target Initial Response
Severity A (Critical)	Complete loss of service or significant degradation - no workaround	1 hour (Unified Premier); phone required
Severity B (High)	Moderate loss of service; business impacted but operational	2 hours
Severity C (Non-critical)	Minor issue or question; workaround available	Next business day

Notes

- For P1 incidents involving Microsoft 365, open a **Severity A** case and call the Premier phone line.
- Reference the Tenant ID when opening cases for Entra ID or Azure issues.
- Microsoft Admin Center > Service Health > View history - check before opening a case to confirm it is not a known Microsoft-side outage.

Okta

Products Supported

Okta Identity Cloud (SSO, MFA/Okta Verify, Universal Directory, Lifecycle Management, API Access Management).

Support Details

Field	Value
Support portal	https://support.okta.com
Support phone	+1 (800) 219-0964
Summit IT Okta Org	summitit.okta.com
Contract ID	OKT-2024-88341
Support tier	Premier Success
Contract renewal date	2026-11-30
TAM / CSM	Tom Vasquez - tvasquez@okta.com - +1 (669) 555-0214

Okta system status	https://status.okta.com
--------------------	---

Severity Definitions (Okta)

Severity	Definition	Target Initial Response
P1 (Critical)	Service unavailable or login broken for all users	30 minutes (Premier)
P2 (High)	Significant functionality impaired; many users affected	2 hours
P3 (Medium)	Moderate impact; workaround exists	8 business hours
P4 (Low)	Minor issue; general questions	2 business days

Notes

- For Okta SSO outages affecting all users, open a P1 case immediately and call the support line - do not wait for portal response.
- Log in to the Okta support portal with an IT admin account (not the affected org) to submit cases.
- The Org URL (summitit.okta.com) and Contract ID are required fields when submitting a case.

Palo Alto Networks

Products Supported

GlobalProtect VPN client and gateways, Panorama management platform.

Support Details

Field	Value
Support portal	https://support.paloaltonetworks.com
Support phone	+1 (866) 898-9087
Support account	PA-CX-99201
CSP / Partner ID	summitit-pa
Support tier	Premium Support

Contract renewal date	2027-01-15
TAM	Diego Reyes - dreyes@paloaltonetworks.com - +1 (408) 555-0388
Panorama version	11.1.3
Status page	https://status.paloaltonetworks.com

Severity Definitions (Palo Alto)

Severity	Definition	Target Initial Response
S1 (Critical)	Production system down; no workaround	1 hour (Premium); phone required
S2 (High)	Production impaired; degraded performance	2 hours
S3 (Medium)	Non-production issue; workaround exists	4 hours
S4 (Low)	General question; feature request	Next business day

Notes

- For VPN gateway outages (P1 at Summit IT), open an S1 case and call. Have Panorama version and the affected gateway name ready.
- When opening a case, the support account number PA-CX-99201 and the registered admin email (it-admin@summitit.com) are required for authentication.

Dell Technologies

Products Supported

Dell Latitude 7440 laptops, Dell monitors (P2723DE), Dell WD19S docking stations, Dell server hardware.

Support Details

Field	Value
Support portal	https://www.dell.com/support
Support phone (ProSupport)	+1 (800) 624-9897

ProSupport contract	DELL -PS-0038821
Support tier	ProSupport Plus (next-business-day on-site for laptops)
Contract renewal date	2027-06-30
Account rep	Amber Johansson - amberj@dell.com - +1 (512) 555-0276
Asset Express Tag lookup	https://www.dell.com/support (enter Service Tag from bottom of device)

Severity Definitions / Service Levels (Dell)

Level	Definition	Response
ProSupport Plus - Critical	System completely inoperable; total data loss risk	Next business day on-site dispatch (some regions: 4-hour response add-on)
ProSupport Plus - High	Significant functionality impaired	Next business day
ProSupport Plus - Standard	Minor issue; guidance needed	Next business day (phone/remote)

Warranty / RMA Process

1. Go to <https://www.dell.com/support> and enter the device **Service Tag** (7-character code on the bottom sticker, also in CMDB).
2. Confirm warranty status and contract coverage.
3. If hardware repair or replacement is needed: - Click **Contact Support > Technical Support**. - Reference contract **DELL -PS-0038821**. - Dell will dispatch a technician (next business day) or ship a replacement part.
4. Log the Dell case number in SummitDesk and in the CMDB asset record.

Notes

- Always retrieve the **Dell Service Tag** before calling - it is the 7-character alphanumeric code on the bottom of the device.
- For pre-order or bulk hardware inquiries, contact the account rep Amber Johansson directly.

CrowdStrike

Products Supported

CrowdStrike Falcon (EDR, antivirus, firewall management, threat intelligence, vulnerability management).

Support Details

Field	Value
Support portal	https://supportportal.crowdstrike.com
Support phone	+1 (877) 934-5227
Account ID	CS-ENT-77412
Customer CID	b2c9e7f14a3d88ce19047b2c (first 24 chars shown; full CID in vault)
Support tier	Enterprise Support
Contract renewal date	2027-02-28
TAM	Marcus Bell - mbell@crowdstrike.com - +1 (512) 555-0491
Falcon console	https://falcon.crowdstrike.com
Status page	https://status.crowdstrike.com

Severity Definitions (CrowdStrike)

Severity	Definition	Target Initial Response
P1 (Critical)	Active breach; ransomware; Falcon platform down	1 hour - phone required; IR engagement
P2 (High)	Significant sensor or console issue affecting security posture	2 hours
P3 (Medium)	Non-critical sensor or console issue; workaround available	8 hours
P4 (Low)	General guidance; feature questions	2 business days

Incident Response (Falcon OverWatch / IR)

If CrowdStrike detects a threat requiring active incident response: - CrowdStrike OverWatch (24/7 managed threat hunting) will contact the SOC email (soc@summitit.com) directly. - SOC should call +1

(877) 934-5227 and identify as an active breach for immediate P1 IR engagement. - The Customer CID is required for all IR calls.

Notes

- Summit IT's Falcon console is hosted at <https://falcon.crowdstrike.com> (US-1 region).
- Sensor downloads and the CID for manual installations are available in the console under **Sensor Downloads**.
- For Falcon sensor deployment issues via Intune/Jamf, reference the CrowdStrike Intune/Jamf deployment guide pinned in Slack #l2-desktop.

Jamf

Products Supported

Jamf Pro (MDM for Mac), Apple Business Manager integration, Jamf Connect (future roadmap).

Support Details

Field	Value
Support portal	https://www.jamf.com/support/
Support phone	+1 (612) 605-6625
Contract ID	JAMF-2025-10029
Instance URL	https://summit.jamfcloud.com
Support tier	Jamf Premium Support
Contract renewal date	2026-12-31
CSM	Sandra Ito - sito@jamf.com - +1 (612) 555-0339
Jamf Nation (community)	https://community.jamf.com
Status page	https://status.jamf.com

Severity Definitions (Jamf)

Severity	Definition	Target Initial Response
Critical	Jamf Pro instance unavailable; all Mac management down	1 hour (Premium)

High	Major functionality impaired; policy distribution failed	2 hours
Medium	Non-critical functionality impaired; workaround available	4 hours
Low	General guidance; feature questions	Next business day

Notes

- The Jamf Pro instance URL (summit.jamfcloud.com) and Contract ID [JAMF-2025-10029](#) are required when opening a support case.
- For Apple Business Manager integration issues, Jamf Support coordinates with Apple - have the ABM Apple Customer Number ([APL-CX-002847](#)) ready.
- Jamf Nation (community forums) is an excellent resource for scripting and policy questions before opening a formal case.

Quick Reference: Open a Vendor Case

Step	Action
1	Open a SummitDesk INC ticket for the vendor issue (if not already open)
2	Gather: account/contract ID, product version, error messages, impact scope
3	Log into the vendor support portal (links above) and open a case at the appropriate severity
4	For P1/Critical: call the support phone - do not rely on portal alone
5	Record the vendor case number in the SummitDesk ticket: "Vendor case [CASE-ID] opened [date/time]"
6	Update the SummitDesk ticket at each vendor update
7	On resolution, close the SummitDesk ticket and note the vendor case resolution
