

Equipment Return Guide

When you leave Summit IT Services - whether through resignation, retirement, or end of contract - all company-owned technology assets must be returned. This guide explains what to return, how to prepare your device, and how to ship or drop off equipment.

For questions, contact the Service Desk at <https://help.summitit.com> or +1 (800) 555-7866.

What to Return

Return all Summit IT-tagged equipment. Asset tags are silver stickers with the format SUM-LT-##### (laptops), SUM-MB-##### (MacBooks), or SUM-MN-##### (monitors).

Item	Return Required	Notes
Laptop (Windows or Mac)	Yes	Return with original power adapter and charging cable
External monitor(s)	Yes	Return with all cables (USB-C, HDMI, power)
Docking station (Dell WD19)	Yes	Return with power adapter
Keyboard and mouse	Yes	Logitech peripherals provided by IT
Headset	Yes	Jabra Evolve2 or Logitech Zone Wireless
YubiKey (if issued)	Yes	Hardware security key - required return; report as lost to IT Security immediately if missing
Corporate mobile device (if issued)	Yes	iPhone or iPad; include all accessories and charging cables
USB-C hub or adapters (Summit IT-issued)	Yes	Check for the asset tag

You do not need to return items purchased personally or software bags/swag received at company events. If you are unsure whether an item is company property, check for the SUM- asset tag or ask the

Before You Return Your Device

Step 1 - Back Up Personal Files

IT will wipe your device immediately upon return or as part of the remote wipe process. Personal items saved locally will not be recoverable.

- Move any personal documents to personal storage (personal Google Drive, external hard drive, etc.) before your last day
- Do NOT transfer company files to personal storage - this may violate Summit IT data handling policies
- Work files should already be in **OneDrive** (auto-synced); if not, contact IT before your last day

Step 2 - Sign Out of Personal Accounts

Remove any personal accounts from the device before returning it:

- Personal email accounts (Gmail, personal Outlook) added to the Mail app
- iCloud (Mac only) - go to System Settings -> Apple ID -> Sign Out before returning
- Personal cloud storage apps (Dropbox, Google Drive personal)
- Browsers - sign out of personal browser profiles and clear browsing data

Step 3 - Do Not Factory Reset the Device

Do not factory reset, reinstall the OS, or attempt to remove management profiles from your device. IT handles all data wiping using Intune (Windows) or Jamf Pro (Mac) after return. Unauthorized device modifications may delay return processing and are noted in the return record.

Step 4 - Remove Stickers and Cases

Remove personal stickers, cases, or covers from the laptop or phone. Summit IT-issued protective cases for iPhones and iPads should be included in the return.

How to Return Equipment

Option A - In-Office Drop-Off (Preferred)

If you work at or near a Summit IT office, return equipment directly to the **IT Equipment Room** or **Reception** on your last day. Request a signed **Equipment Return Receipt** at the time of drop-off - this is your confirmation that the items were received.

Summit IT offices with IT equipment drop-off:

Office	Location	Hours
--------	----------	-------

Denver HQ	Floor 3, IT Equipment Room (ask reception for access)	Mon-Fri, 8 AM - 5 PM MT
Chicago	Floor 12, Reception	Mon-Fri, 8 AM - 5 PM CT
New York	Floor 7, IT Closet (coordinate with local IT contact)	Mon-Fri, 9 AM - 5 PM ET
Austin	Floor 2, Reception	Mon-Fri, 8 AM - 5 PM CT
All other offices	Coordinate with office manager for secure handoff	Varies by office

Option B - Remote / Shipped Return

For fully remote employees or those not near an office, IT will ship a **prepaid return box** to your home address.

Process:

1. IT initiates the return shipping process when the offboarding ticket is submitted. You do not need to request the box separately.
2. A **FedEx prepaid return label** and a box sized to your equipment will arrive at your home address within 3 business days of the offboarding request.
3. Pack all equipment using the original packaging (if available) or the return box provided. Use bubble wrap or padding for monitors - IT will include packing materials in the return kit.
4. Affix the prepaid FedEx label to the outside of the box and drop it at any FedEx location or schedule a FedEx pickup at fedex.com.
5. Reply to your SummitDesk offboarding ticket with the FedEx tracking number once shipped.

Deadline: Equipment must be shipped within **5 business days of your last day of employment**. Equipment not returned within 10 business days is subject to a financial hold per HR policy.

Equipment Condition

Equipment is expected to be returned in reasonable working condition accounting for normal wear and use. The following are considered beyond normal wear and will result in a chargeback to the departing employee or their department:

Damage Type	Chargeback
Cracked laptop screen	\$350-\$650 depending on model
Liquid damage to laptop	\$500-\$1,200 (repair or replacement cost)
Missing power adapter	\$75-\$120

Missing YubiKey	\$65 per key
Non-returned laptop (lost)	Full replacement cost: \$1,450-\$2,200
Non-returned monitor	\$280-\$450 depending on model

Chargebacks for departing employees are processed through the final paycheck per HR policy. Chargebacks to department cost centers are processed within 30 days.

After Return

Once IT receives and processes the returned equipment, you will receive a **return confirmation email** to your personal email address (on file with HR). The offboarding ticket in SummitDesk will be updated to "Equipment Returned."

Your access to Summit IT systems is fully revoked on your last day, independent of equipment return status.
