

SVC-01 - New / Replacement Laptop Request

Description

Summit IT provisions and manages all employee laptops. Standard hardware is pre-configured with the Summit IT image, including Windows 11 Pro or macOS Sequoia (15), CrowdStrike Falcon, Okta Verify, GlobalProtect VPN, and Microsoft 365. Laptops are enrolled in Microsoft Intune (Windows) or Jamf Pro (Mac) at the time of provisioning.

This service covers requests for:

- **New laptops** for existing employees who do not currently have a device (e.g., role change, team expansion)
- **Replacement laptops** for devices that are damaged, lost, stolen, or end-of-life (typically 4-year refresh cycle)
- **Loaner laptops** for temporary use while a primary device is being repaired

Who Can Request

All full-time and part-time employees. Requests must be submitted by the employee or their direct manager. Contractor laptop requests are handled under [SVC-04 - New Hire IT Setup](#) or the [Contractor & Temp Access Setup](#) guide.

What's Included

Item	Details
Windows laptop	Dell Latitude 7440, Windows 11 Pro, 16 GB RAM, 512 GB SSD
Mac laptop	MacBook Pro 14" (Apple silicon), macOS Sequoia 15, 16 GB RAM, 512 GB SSD
Standard peripherals	Dell 24" or 27" USB-C monitor, Dell WD19 dock, Logitech keyboard and mouse
Headset	Jabra Evolve2 40 (standard); Logitech Zone Wireless (manager/director and above)
Configuration	Summit IT image, Okta SSO, Intune/Jamf enrollment, CrowdStrike, GlobalProtect

Data migration	Best-effort migration from old device via OneDrive sync; in-person sessions available
----------------	---

Non-standard configurations (upgraded RAM, larger SSD, dual monitors, or alternate models) require Director of IT approval and a business justification.

How to Request

1. Navigate to <https://help.summitit.com> and log in with your Okta credentials.
2. Select **Request a Service -> Hardware -> Laptop Request**.
3. Choose the request type: New, Replacement, or Loaner.
4. Specify the preferred operating system (Windows or macOS) and any business justification for non-standard specs.
5. For replacement requests, include the asset tag (SUM-LT-##### or SUM-MB-#####), reason for replacement, and condition of the existing device.
6. Submit. Your manager receives an approval email automatically.

Once approved, IT will confirm the estimated delivery date via your SummitDesk ticket (ticket ID format: REQ-#####).

Fulfillment SLA

Request Type	Target Fulfillment	Notes
Standard new laptop (in stock)	5 business days	P4 SLA
Replacement for lost/stolen device	3 business days	P3 SLA; police report required for stolen devices
Loaner laptop	1 business day	Subject to loaner pool availability
Non-standard / custom configuration	10-15 business days	Procurement lead time applies
New hire provisioning	See SVC-04	Must be requested 5 BD before start date

Cost / Chargeback

Item	Chargeback
Standard laptop (4-year cycle refresh)	No chargeback - covered by IT budget

New laptop (headcount addition)	Charged to requesting department cost center
Non-standard upgrade (RAM, SSD)	Delta cost charged to department
Lost or stolen replacement	Department charged full replacement cost (\$1,450-\$2,200) unless IT security waiver approved
Loaner laptop	No charge for up to 10 business days
