

SVC-04 - New Hire IT Setup

Description

The New Hire IT Setup service provisions all technology accounts, devices, and access required for a new employee or contractor to be productive on Day 1. The request must be submitted by the hiring manager or HR Business Partner through SummitDesk **at least 5 business days before the employee's start date**.

Late requests (fewer than 5 business days) are handled on a best-effort basis and may result in the new hire waiting for equipment or access on their first day.

Who Can Request

- Direct hiring managers
- HR Business Partners
- Department administrators acting on behalf of the manager

Employees may not self-submit new hire requests.

What's Included

Standard New Hire Package

Item	Details
Okta account	SSO account created at <code>firstname.lastname@summitit.com</code> ; temporary password sent to manager
Microsoft Entra ID	Synced from Okta; M365 E3 license assigned
Microsoft 365	Outlook mailbox, Teams, OneDrive (1 TB), SharePoint access per team site
Slack	Workspace account provisioned; added to <code>#general</code> , <code>#it-help</code> , and department channels
1Password Business	Vault provisioned; invite sent to personal email for initial setup
Okta Verify (MFA)	Configured on first login; employee must enroll during Day 1 onboarding

Laptop	Standard device per role (Windows or Mac); configured with Summit IT image
GlobalProtect VPN	Pre-installed; requires Okta MFA for connection
CrowdStrike Falcon	Pre-installed on all endpoints
Standard application access	Based on role profile submitted in the request form

Role-Based Access Profiles

The request form includes a **Role Profile** selector that pre-populates common application access bundles:

Role Profile	Included Applications
Corporate (all staff)	M365, Slack, 1Password, Zoom, Intune/Jamf self-service
Sales	Above + Salesforce (standard user), ZoomInfo, Outreach
Engineering	Above + GitHub Enterprise, Jira, Confluence, AWS (read)
Marketing	Above + HubSpot, Figma, Adobe Creative Cloud
Finance	Above + NetSuite (standard), Adaptive Insights, Concur
HR	Above + Workday (standard), Greenhouse, DocuSign
IT	Above + Okta admin console, Intune, Jamf Pro, SummitDesk admin

Additional application access beyond the role profile must be requested separately via [SVC-03](#).

How to Request

1. Go to <https://help.summitit.com> -> **Request a Service** -> **HR & Onboarding** -> **New Hire IT Setup**.
2. Enter the new hire's full legal name, personal email address, employee ID (SUM-##### provided by HR), start date, office location or remote designation, and role profile.
3. Select the preferred laptop OS (Windows or Mac). If no preference is submitted, Windows (Dell Latitude 7440) is issued.
4. List any additional software or access needs in the **Special Requirements** field.

5. Submit. The HR Business Partner is notified for confirmation. IT begins provisioning upon HR sign-off.

The new hire's temporary Okta password is delivered to the **manager's** Summit IT email two business days before the start date.

Fulfillment SLA

Milestone	Target	Notes
Account provisioning (Okta, M365, Slack)	3 business days before start	Requires request $\geq$ 5 BD in advance
Laptop configured and shipped / available	2 business days before start	Shipped to home address or available at office
Role-based access granted	Day 1	Applied at account creation
Loaner device (late request)	Start date (best effort)	Not guaranteed for $<$ 2 BD notice

P3 SLA (4-hour response, 2-business-day resolution) applies from the time the request is submitted.

Cost / Chargeback

Item	Chargeback
Standard new hire account bundle	No chargeback - covered by IT budget
Laptop and peripherals	Charged to hiring department cost center
Role-based license bundle	Standard licenses (M365, Slack, 1Password, Zoom) covered by IT; departmental apps (Salesforce, Adobe CC, etc.) charged to department
