

SVC-06 - Mobile Device Enrollment

Description

Summit IT supports mobile access to corporate email, calendar, Teams, and Slack on enrolled mobile devices. Enrollment registers the device in Microsoft Intune and applies a Summit IT Mobile Device Management (MDM) configuration profile, which enforces screen lock, encryption, and remote wipe capabilities.

This service covers:

- **BYOD (Bring Your Own Device)** - personal iOS or Android phones enrolling in Intune for corporate app access
- **Corporate-issued mobile devices** - Summit IT-owned smartphones or tablets provisioned for specific roles
- **Re-enrollment** - for employees who have received a new personal or corporate device

Important: Enrollment does NOT give Summit IT access to personal photos, apps, or data. Only corporate data within managed apps (Outlook, Teams, OneDrive) is under IT policy.

Who Can Request

All full-time and part-time employees. Contractors may enroll personal devices only with explicit manager and Security approval.

What's Included

BYOD Enrollment

Component	Details
Microsoft Intune Company Portal app	Installed from App Store / Google Play
MDM profile	Enforces 6-digit PIN, screen lock after 5 minutes, device encryption
Managed apps deployed	Outlook, Teams, OneDrive, Authenticator, GlobalProtect, 1Password
Corporate data isolation	Work apps run in a managed container; wipe only affects corporate data
Supported OS	iOS 16 or later; Android 12 or later

Corporate-Issued Device Enrollment

Component	Details
Device	iPhone 15 (standard) or iPad Pro 11" (field roles)
MDM	Fully managed via Apple Business Manager + Intune
Apps pre-installed	Outlook, Teams, OneDrive, Okta Verify, GlobalProtect, 1Password, Zoom
Personal use	Permitted with manager approval; personal apps in unmanaged partition

How to Request

BYOD Self-Enrollment (Recommended)

1. On your mobile device, download **Microsoft Intune Company Portal** from the App Store or Google Play.
2. Open the app and sign in with your Summit IT credentials (`firstname.lastname@summitit.com`).
3. Follow the on-screen prompts to install the MDM configuration profile.
4. Approve the Okta Verify push notification to complete MFA enrollment on the device.
5. Enrollment completes within 15 minutes. Corporate apps will install automatically.

If you encounter issues during self-enrollment, open a ticket at <https://help.summitit.com> -> **Request a Service** -> **Devices** -> **Mobile Device Enrollment**.

Corporate Device Request

1. Navigate to <https://help.summitit.com> -> **Request a Service** -> **Devices** -> **Mobile Device Enrollment**.
2. Select **Corporate Device Request** and provide the business justification (e.g., field work, role requires dedicated device).
3. Manager approval is required. Director approval required for iPad Pro or devices over \$800.
4. Submit. IT will ship the device pre-enrolled or schedule an in-person setup session.

Fulfillment SLA

Request Type	Target Fulfillment	Notes
BYOD self-enrollment	Immediate (self-service)	No ticket required if successful

BYOD assisted enrollment	1 business day	P4 SLA
Corporate device (in stock)	3 business days	P4 SLA
